COMMITTED

Porta is committed to using timbers from responsibly managed forests and resources.

ABOUT PORTA

An Australian-owned and locally operated company. Porta have a rich history spanning over 70+ years proudly manufacturing and distributing a broad range of timber products using various local and imported certified timber species.

We take pride in being one of Australia's leading suppliers of decorative timber products to the home improvement, building, trade and commercial sectors.

Porta's milling and importing operations provide quality timber, moulding and design solutions to the construction industry. At Porta we leverage our expertise in timber to source and provide innovative and unique designs for internal and external applications.

Porta is committed to sustainable and renewable operations giving priority to sourcing timbers from certified sources and are backed by a team that is passionate about timber with expertise to meet your specific needs.

We are Porta.

The people who know and love timber!

As timber is a natural material, every piece is unique and will appear differently in finish, either in colour or features. Porta cannot guarantee the colour, grain, or texture of timber.
